

PCE MEET

One day. Real insights. True connections.

WHAT IS PCE MEET?

PCE Meet is a global, city-based platform where project controls professionals come together to learn, connect, and grow—year-round.

ABOUT PCE MEET

PCE Meet is an initiative by Project Controls Expo that goes beyond annual events, delivering expert-led technical sessions and focused networking in small, curated groups. Through hands-on skill-building sessions, participants gain practical expertise, while targeted networking turns conversations into real career opportunities.

Hosted across key global locations—including the UK, USA, Australia, Singapore, Dubai, and Saudi Arabia—PCE Meet blends technical authority with peer-level engagement, creating smaller rooms that spark bigger conversations in the project controls community.

Level up your skills. Expand your network. Advance your career.

WHY PCE MEET?

Project controls is transforming quickly, and professionals need learning and networks that keep pace. PCE Meet is designed for impact:

Smaller rooms.
Bigger conversations.

Hands-on, practical learning you can apply immediately.

High-quality networking that goes beyond business cards.

Balanced technical authority and peer-level relatability.

Designed for project controls professionals at every stage—whether you're a mid-level practitioner enhancing your expertise, a senior consultant seeking advanced insights, or an organization building team capability—PCE Meet delivers focused learning, meaningful connections, and global relevance—all in a single day.

Join us at PCE Meet

where ideas drive projects forward.
