REDSTONE RISK

Introductions

Emma Lovesey

Risk Manager, Gleeds

William Foulds

Managing Director, Redstone Risk Ltd

1. Project Controls is a jigsaw puzzle

Project Controls EXPO London, UK gleeds REDSTONE RISK

2. When data is good, life is good

Data quality will help or hurt.

Be the champion for good data – quality drives confidence.

- Be **known** for reliable data.

Good data = Good story telling.

- *Information* > *Stories* > *Decisions*

Seek different perspectives.

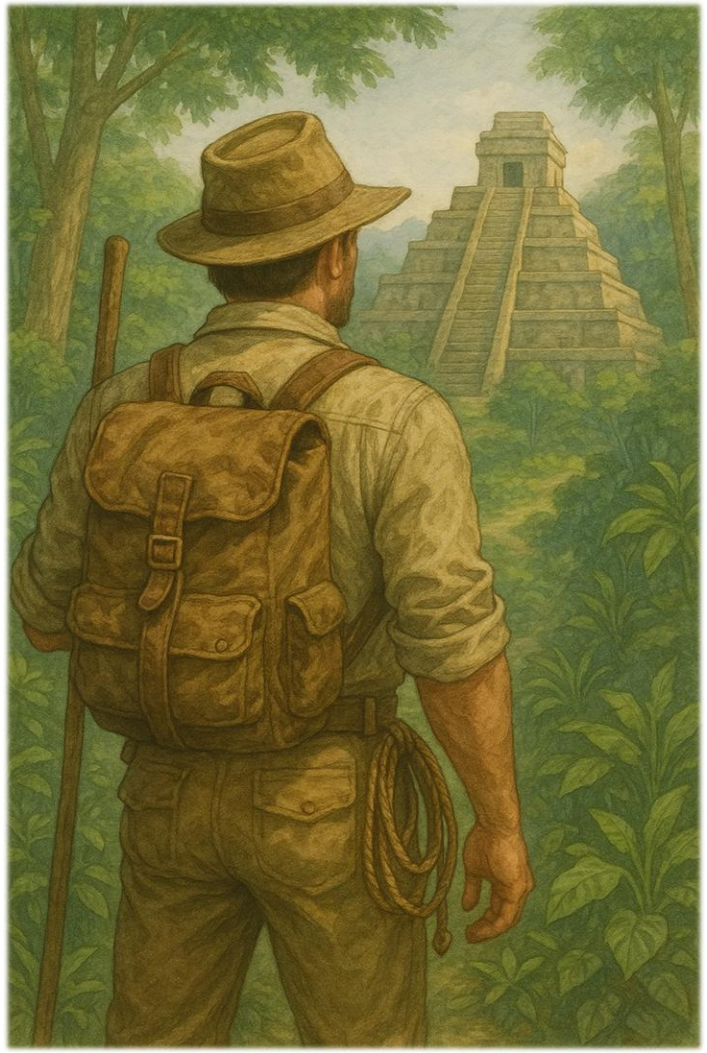
3. Soft skills, hard to master

Relationships matter.

Translate complexity into simplicity.

Use visuals.

Less can be more!



Integrity

Flexibility

Empathy

Honesty
