When all the many stakeholders involved in planning and executing a major project work in silos, the result is often double working, manual entry, inefficiencies and errors.

RPC's award-winning out-of-the-box, rapidly deployed project control solutions, based around the Oracle Primavera toolset, offer a holistic approach that brings all those stakeholders together, working in the same datasets and towards unified goals. Integrating the workflows and reporting processes of all the Planners, Schedulers, Cost Engineers, Contracts departments and more working on a project, programme or even an entire portfolio enables powerful project controls that will transform your business.

When you choose RPC, we work with you to shape the solution that meets your needs and then support your implementation with Hosting, Training, Support and ongoing Consultancy, making sure that – wherever you are and whatever you do – you can be sure of the best return on your investments.

Platinum Partner – Laminar

We're a project management consultancy for people who want complete control and total transparency over their complex projects. Pair boots-on-the-ground project managers – people who know construction as well as they do strategy – with tech talent you'd find at a top-tier software firm. By connecting these worlds, we design and deploy digital processes that provide visibility over everything that's happening – and the ability to make every decision with unquestionable facts.

With over 130 data centre projects and \$50bn+ of infrastructure and high-tech facilities delivered globally, we've proven that the most effective way to deliver your complex projects is with great people, working together as a great team.

The advertisement features the Laminar logo at the top left. The main headline reads "Get complete control and total transparency over your complex project". Below this, a sub-headline states: "Delivering complex projects is all about managing the details. We combine boots-on-the-ground experience with digital precision to connect the work front to the boardroom – and control every layer of delivery, down to the smallest information deliverable." A blue "learn more" button is positioned to the left of a central illustration. The illustration depicts a man in a white shirt and blue hard hat sitting at a desk with a laptop and blueprints. To his left are server racks. Above him, several small inset images show construction sites with cranes, workers, and machinery, all connected to the central figure by thin lines, symbolizing the integration of physical and digital project management.
